

SPRINT eVIDEOCONFERENCINGSM

ENABLING WEB-BASED MEETING MANAGEMENT

With Sprint eVideoconferencing, you can now make the most of your valuable time by using the Web to set up and manage videoconferences on demand. This online service reduces the need for advance meeting scheduling and allows you to respond quickly to fast-breaking business needs.

With this Web-based tool, you can connect participants at up to six sites at up to 384 Kbps per site. These sites can be using either ISDN or IP transport.

Sprint eVideoconferencing makes it easy to coordinate critical last-minute meetings with people across the country or around the world. It eliminates the hassles of booking meeting locations, arranging hotel rooms, and making travel reservations. Meeting participants can be connected in seconds, virtually face to face.

Sprint eVideoconferencing allows you to:

- ▶ Register and administer conferences online
- ▶ Launch and manage conferences on demand
- ▶ View real-time usage reports on individual conferences

Features

With Sprint eVideoconferencing, you will enjoy the following features.

Conference administration and site monitoring of active conferences with the ability to:

Business advantages

Sprint eVideoconferencing makes it easy to launch and administer an on-demand conference. With this online service, conferences no longer need to be booked 24 hours in advance. You can quickly assemble critical meetings and garner group feedback in order to make time-sensitive business decisions. And you can benefit from conference options that give you greater control over the conference — enabling you to manage meetings more effectively.

Company eVideoconferencing administrators will appreciate the service's reporting capabilities and quick access to online customer service.

Make the most of your time — and enjoy the efficiencies of well-coordinated meetings — with Sprint eVideoconferencing.
