

International Access

Simplify Voice and Data Calls While Traveling Abroad

Sprint International Access improves the financial management of your firm's international voice and data calls, by letting you:

- » Bypass excessive overseas operator and hotel surcharges
- » Avoid fluctuating currency rates
- » Increase employee productivity overseas
- » Choose the most convenient billing option
- » Always reach a U.S.-based Sprint operator

When business takes you traveling to destinations abroad, rely on Sprint FōNCARDSM International Access to simplify voice and data calls back to the United States, or to another country.

Simplify and save

Sprint International Access enables you to bypass overseas operator and hotel charges. You can optimize your company's international calling expenditure by directly accessing Sprint's network for every call you make. And every call you make from more than 120 countries is billed in U.S. currency at Sprint's economical rates. You receive Sprint International Access low rates while faxing, too.

Make your global business more productive

Simplify international calling for employees by eliminating language and currency barriers. This added convenience makes it easier for employees to stay in touch with the office and clients when they travel internationally—increasing their productivity. You have 24-hour access to all your customers and employees.

Manage international travel costs

With Sprint International Access, you can choose the most convenient billing option for your business. All calls appear on your regular Sprint long distance phone bill.

Basic Features

Availability

- » Access the Sprint Network in more than 120 international locations by dialing the Sprint Access Number for the country you are in. A list of Sprint Access Numbers is available by calling Customer Service at 1-800-877-4020 or from the Internet at www.sprint.com.

Calling Options

- » Place calls directly to locations in the United States and to many international locations through an English-speaking Sprint Operator.
- » Operator Services are also available to place:
 - Station-to-station calls
 - Person-to-person calls
 - Collect calls to the United States
 - U.S.-based toll-free numbers

Charges

- » Avoid overseas operator and hotel surcharges by directly accessing Sprint's network via Sprint International Access.
- » Economical Sprint International Access rates apply to all calls.
- » All calls are billed in U.S. currency.

Special Services

- » Redial: Make multiple calls by holding the line after completing your first call and an operator will come back on the line to place your next call.
- » Voice Response Unit: Place calls via an automated voice response unit instead of an operator in select countries.
- » Global Calling: In select countries, call one international location from another international location.
