

The Calling Card

With a Number You Can Remember

Flexible Numbering makes FÖNCARDSM so easy to use, you won't have to take it out of your wallet!

Now, use a number you're completely familiar with as your FÖNCARD authorization number.

- » Select the entire 14-digit authorization number yourself— your 10-digit office or home phone number, plus your own four-digit Personal Identification Number (PIN).
- » Use the same authorization code from another carrier's calling card on your FÖNCARD.
- » Order as many FÖNCARDS as you need, and get this great Flexible Numbering feature with each and every one.
- » Never again fumble for your card to make a call, because you'll know your authorization number by heart!

Changing is easy!

- » Change your authorization number in a matter of minutes by simply changing the personal PIN. Use this:
 - When an employee changes extensions.
 - When a FÖNCARD is lost or stolen.
 - Whenever you want or need to change it.
- » Add another personal touch by customizing each of your company FÖNCARDS:
 - With employee names.
 - With a company slogan or message.
 - With a department name or account number.
 - With any two lines of printed text.
- » Replace a worn or destroyed FÖNCARD and keep the same authorization number.
