Sprint Total Usage Discount Promotion¹

New subscribers to the Sprint Smart Plan or the Sprint Global FamilySM Advantage II service may be eligible to receive up to a 7.5% discount off the customer's total monthly long distance usage. The discount will be given in the form of a credit on the customer's monthly bill. In order to be eligible for this promotion, customers must subscribe to service and sign-up for this promotion by on-line enrollment at Sprint's web site via internet links from Sprint-designated web sites. The percentage discount the customer will received is dependent upon how many customers sign-up for service and enroll in this promotion as shown below:

<u>Total Number of Customers Enrolled</u>	<u>% Discount Off Total Monthly Long Distance Usage*</u>
1 - 100	0.0%
101 - 2000	2.5%
2001 - 5000	5.0%
5001+	7.5%

Total monthly long distance usage does not include per call surcharges, per call connection fees, MRCs, taxes or any other non-usage charge.

The customer will receive a higher percentage discount as more customers enroll in this promotion. Customers will begin to receive any change in discount on the next full invoice following the percentage change. Once the enrollment period of this promotion expires, customers will receive the final percentage discount until such time as Sprint changes or cancels the benefit of this promotion. If a customer cancels Sprint service before the benefit period of this promotion expires, no promotional benefit will be given to the customer on the customer's final invoice. Instead, the base tariffed rates of the customer's underlying service will apply. This promotion is available for enrollment through November 6, 2000 unless sooner changed or canceled by Sprint.
